Easy Fresh 2.0

The world's only air
freshener dispenser where
the cover is the air
freshener!

Powerful enough to freshen larger areas

The cover contains 2-3 times more fragrance than gels or metered aerosols. The motor driven fan moves air freshener further than a typical passive system, so you'll freshen larger areas.

Freshens consistently for 30 days

The smart chip controlled fan freshens consistently since it turns sparingly in week 1, and gradually turns more frequently until week 4 when it runs constantly.

Easy to use

Maintenance is simple with easy to use LED and audible reminders along with a push button cover for quick removal and replacement.

Safe for the environment

Cannot spill or misfire, part of the industry's first closed-loop recycling program so it's easily recyclable.

NEW PIG UNIVERSAL

LIGHTWEIGHT ABSORBENT MAT PAD - 100 COUNT

- Lasts 2X longer than ordinary mats for fewer change-outs, absorbs everything, works everywhere; that's why more plants worldwide use PIG Mat than any other brand
- Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup

- Highly absorbent, fine-fiber construction won't leave liquids or fiber residue behind
- Absorbs most common industrial liquids - oils, water, solvents, coolants and more
- Absorbed leaks and drips blend right in; dark gray color hides grime so mat stays on the job longer
- Can be wrung out and incinerated after use to reduce waste or for fuels blending
- Pads are ideal for catching drips and soaking up spills
- Easy-tear perforations let you take only what you need so you use less mat and save money
- Light-weight construction is ideal for small tasks and cleanups
- Mats take on the properties of absorbed liquids - always take proper precautions when handling saturated absorbents
